Dear Non-Profit Community:

Another year, another audit completed, another round of proposals submitted, another round of applications reviewed, the cycle grinds or glides forward depending upon your attitude.

This is a world of keeping and maintaining a positive attitude whether seeking or authorizing grants. Remember that when a door slams a window always opens and that some of the greatest fundraisers in history did not hear "No" until the fifth time.

The Kenneth King Foundation undergoes a full certified audit just like many other non-profits and foundations. Kunding, Corder & Engle, P.C. arrives at our offices in late January and spends a week examining how we spend our revered leader's funds. Our Treasurer Minnie Lundberg is a flawless accountant and since the beginning of this foundation in 1990 has kept all the columns balanced despite a sometimes "cranky" computer and over \$27 million dispersed in grants to several thousand recipients. She has written a lot of checks, the bank now personally delivers the month-end statements because there are more canceled checks than fit their envelopes.

We receive copies of the audit a few weeks later and we print the Revenues and Expenses and Balance Sheet in our annual report. We also print a complete list of each grant made during the year. Every applicant grant should receive a letter from us either containing a check or denial explanation. Many times, there is a very fine line between those who receive checks and those who do not. At the King Foundation we like to award grants and we work very hard to make grant applications successful. All who apply should realize that this is a competitive drill, every grant competes against another request.

Many times we have to remember our founder who many board members knew for years and attempt to fund what his wishes might have been. We do have some guidelines to follow including funding the non-profits he personally assisted during his lifetime.

Some grants are awarded because a non-profit is indeed attempting to "do the common thing in an uncommon way." This was Mr. King's motto written while he was in school.

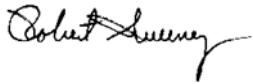

This year there was just not enough money to fulfill all of the requests we received. If you received a grant from us it means that in our opinion you run a top-flight non-profit organization and that you were at the top of the class.

Grants are denied because the request for funds may be too large. Most of the time, we simply reduce the awarded amount, but sometimes we decide that if you do not receive the full amount requested, the project cannot go forward. We look at "volunteerism" and the amount of funds in the bank. Sometimes, it is our opinion that a non-profit has too much money, or sometimes too little. Foundation grant makers become nervous about funding large deficits that do not improve in following years. We like to use a lot of just plain common sense when reviewing grants and we would urge grant writers to do the same thing.

FROM THE PRESIDENT: (CONT-D)

In closing this report I just read the Rocky Mountain Multiple Sclerosis Center newsletter where they report the following, "Blessed are those who hunger and thirst, for they are sticking to their diets." While many diet we still have much work to do to end hunger, provide shelter and medical services for the disabled and disadvantaged. The King Foundation will continue to support these efforts in Colorado in 2005.

Sincerely,

Robert F. Sweeney
Foundation President

ABOUT OUR FOUNDER:

Kenneth Kendal King was born in Nederland, Texas on August 12, 1901. His father died when Kenneth was eight years old. His early childhood days revolved around working with his widowed mother at a family-run boarding house, both in Texas and later in Denver. In 1916, he and his mother and two brothers moved to Denver. Kenneth graduated from East High School in 1918. Determined to get a good education, he enrolled at Northwestern University in Evanston, Illinois. He worked his way through four years of college, driving a taxi cab in Chicago, waiting tables at his fraternity house, and selling men's clothing in the Chicago Loop.

In 1929 Kenneth King founded Columbia Savings and Loan Association in Denver, Colorado with offices in Denver, Fort Collins, Colorado Springs, Pueblo, and Littleton with field staff serving all of Colorado. In 1958, Kenneth with his brother, Harold Taft King, built the Petroleum Building at Sixteenth and Broadway.

In 1962 Columbia was sold to MCA, Inc. Kenneth remained on the Board until 1979, completing 50 years with Columbia Savings.

Kenneth King continued his work as an active philanthropist, supporting such organizations as Goodwill Industries, the Leukemia Society, Easter Seal Society, and countless church, civic and social services organizations.

While active with Columbia Savings, he hired a number of handicapped employees and in 1963 was named Colorado Employer of the Year by then Governor John Love, and later received the Distinguished Service Award from President Lyndon Johnson, who cited him for "encouraging and promoting the employment of handicapped people."

He was a life member of Sigma Chi Fraternity. The Omega Chapter House at Northwestern University bears his name.

During his presidency of the Denver Lions Club, he formed the Denver Lions Foundation, recognizing the need for Foundations to raise and distribute funds to worthwhile causes, such as the Lions' blind and hearing programs.

In 1990, Kenneth King founded the Kenneth King Foundation and became the organization's first president. Upon his death on April 25, 1992, Stevens Park Kinney II became the Foundation's second president and the Board of Directors selected by Kenneth King became active.

In the latter part of 1993, President Kinney succumbed to a serious illness, and the five-member board elected Vice President Robert F. Sweeney to assume the current presidency in 1994.

The Board meets quarterly and at special meetings to review business operations and review grant proposals.

Kenneth King's motto throughout his life - and strongly carried out by his Foundation is:

"To do the common thing in an uncommon way"
